

SIX MONTHS FREE · FULL PLATFORM · NOT A BETA

Put a production engine on your next **client build**.

Six months of full access to the BILDIT Visual Experience Engine, with implementation, training, and hosting included. **Build real client work on it, free**, in the stack your team already ships: React, Next.js, and React Native.

6 months

FREE · FULL PLATFORM · NO FEATURE GATING

Production

LIVE OPERATIONAL USE · NOT A SANDBOX

10 spots

LIMITED COHORT · SHAPE THE ROADMAP

01 What's included

- **Integration and implementation** by our team
- **Hands-on support** through your build
- **Training** so your people own the workflow
- **Hosting** for the full six months

10 USERS

1M API CALLS / MO

100GB TRAFFIC / MO

100GB STORAGE

02 The terms

- Free for six months. The clock starts when your **production API key** goes live.
- **No automatic renewal.** It never flips to a paid plan on its own.
- When the term ends, pick a paid plan or stop. Your call.
- Leave any time with **14 days'** written notice.

03 What we ask

- Tell us what works and what doesn't: functionality, usability, performance.
- Join the occasional check-in.
- Flag bugs and the things that should just work.

YOUR INPUT SHAPES WHAT WE BUILD NEXT.

04 Good to know

- Not included during the program:
- **CMS migration** from an existing platform
- **24-hour support, SSO, and SLAs**

OUTSIDE THE PROGRAM · AVAILABLE ON PAID PLANS.

BUILT FOR AGENCIES

- **De-risk a client build** on a free, production-grade engine.
- **Slots into your stack:** SFCC, Shopify Plus, SAP, Adobe Commerce.

- **Ship without the dev queue:** campaigns, components, storefront changes.
- **Direct line to engineering** and a real say in the roadmap.

10 SPOTS · APPLY BEFORE THEY'RE GONE

Ready to build faster?

Tell us about your agency and the client work you'd put it to.
